

Patient & Healthcare Professional Panel

Hear directly from high-quality patients, caregivers, and healthcare professionals to ensure your decisions reflect their real needs.

Types of Panelists

- Healthcare professionals, including physicians, nurses, pharmacists, payers, and more tracked on 40+ specialties.
- Patients and Caregivers profiled on over 80 pre-identified medical conditions.
- We evaluate and update our panel properties regularly based on client needs.

Specialist Recruiting

TriVoca Health's expert recruitment team will track down hard-to-reach target participants outside our panels to meet specific audience requirements, such as key opinion leaders, rare disease patients, and early technology adopters.

Panel Features

- Omni-channel membership building.
- Privacy-safe, high-quality asset and trusted partner to members.
- High level of panel diversity .
- High level of identity validation and fraud risk mitigation, including in-person, Gov. ID, and FinTech-based screening.
- Amassed through the development of local expert panel teams.
- Custom panel development and management available.
